## **Acknowledgment**

We have taken efforts in this project. However, it would not have been possible without the kind support and help of many individuals and organizations. We would like to extend our sincere thanks to all of them.

We are highly indebted to **Asst. professor Ahmed Mushtaq** for his guidance and constant supervision as well as for providing necessary information regarding the project & also for his support in completing the project.

We would like to express our gratitude towards our parents & member of IESCO for their kind co-operation and encouragement which help us in completion of this project.

Our thanks and appreciations also go to our colleague in developing the project and people who have willingly helped us out with their abilities.

## **Abstract**

This research project represents an approach for thinking about the great amount of corruption in public organization specifically WAPDA (IESCO). Dilemma of public organization is to experience immense losses. So they are incapable in generation of required output.

It examines that controlling the corruption lead to an increase in organizational efficiency, organizational effectiveness and organizational performance.

This study analyzed the response of 217 employees of IESCO from different subdivisions and office of manager operations in Islamabad and Rawalpindi. The questionnaire based survey instrument was used. The result of this research demonstrates that organizational performance is not influenced by corruption, whereas organizational effectiveness & organizational efficiency is significantly influenced by corruption.

**Key Words:** Corruption, Organizational Performance, Organizational Effectiveness, Organizational Efficiency.
