NIDA AMAN

Department of Management Sciences

Bahria University Islamabad

2016

ACKNOWLEDGEMENT

I would like to take this opportunity to thank all those people who have helped me in this work. This thesis is the upshot of 4 month research study as an MBA student at Bahria University, at the Department of Management of Islamabad. This thesis would not have been written without the support and encouragement of numerous people, whom I would like to thank here in vociferous manner.

First of all, I tender my gratitude to my thesis supervisor Nida Aman. I deeply appreciate her support, path breaking ideas, and watchful direction which I deeply observed in frequent meetings discussing this work.

My sincere appreciation also goes out to all my other University Faculty members: What I learnt in their classes and from their professionalism has not only made me more knowledgeable but, I hope, a better person too.

Finally, my sincere appreciation also goes out to my friends:, Usman, Shoaib Mustafa, Hamza Hafeez, Shehzaib Munir, Ahsan Imdad, Muhammad Baqir, Noman Hafeez ,Muhammad Kashif, Aqib NIsar, Daniyal Ahmed Syed, Nisar Ahmed, samina Khan and Sundus Malik to give numerous insights to the study and of life.

DEDICATION

VERY RESPECTFULL AND HUMBLY,
I DEDICATE THIS WORK TO MY BELOVED
PARENTS AND GRANDFATHER
Mr. ABDUL GHAFOOR (Late)

Table of Contents

Chapter 1.....	1
Introduction	1
1.1 Research Question	6
1.2 Objective of the study.....	6
1.3 Significance of Study	6
Chapter 2.....	7
Literature Review	7
2.1 Performances and the Corporate Governance.....	7
2.2 Board size and firm performance	26
2.3 Independent Director and firm performance	30
2.4 CEO Duality and firm performance.....	33
2.5 Firm size and firm performance.....	36
Chapter 3.....	39
Methodology.....	39
3.1 Sample selection	39
3.2 Data.....	41
3.3 Variable measurement.....	42
3.4 Impact on firm profitability by corporate governance	42
Net profit margin (NPM)	45
After all expenses have been deducted the dollar’s sales amount left over and this information is examined by NPM. It is said that if the company’s NPM is higher it will more efficiently convert their sales into real profit. NPM is calculated as under	45
3.5 Analytical Model	45
3.5.1 Panel data analysis.....	45
3.5.2 Descriptive Statistics	46
3.5.3 Correlation Matrix.....	46
3.6 Panel data analytic Models	46
Chapter No 4.....	48
Results and Discussion	48
4.1 Descriptive statistic.....	48
4.2 Correlation Matrix.....	49

4.2.1 Interpretation of Table No.3	50
4.2.2 Interpretation of Table No.4	51
4.2.3 Interpretation of Table No 5	52
4.3 Impact of corporate governance on firm performance.....	52
4.4 Impact of corporate governance on Return on assets	54
4.4.1 Common effect model for ROA.....	54
4.4.1.1 Interpretation of Table No 9	54
