We would like to express our gratitude to our project supervisor, for his/her invaluable advice, guidance and his/her enormous patience throughout **Miss Azeema Sadia** the development of the research.

In addition, we would also like to express our gratitude to our loving parents and friends who have helped and given us encouragement.

THE CORNER SHOP

ABSTRACT

The world is vast, and so are our requirements. At any given moment, you may find yourself in need of various establishments such as shops, stores, restaurants, hotels, ATMs, or hospitals. Discovering these services can be challenging, especially when you are in an unfamiliar location. Fortunately, technology has come to our aid, alleviating our concerns. Our smartphones offer comprehensive access to information about the world and beyond, all at our fingertips. Gone are the days when we had to be physically tethered to communicate with friends in different cities. We now have the convenience of cabs readily available at our doorstep, transporting us to our desired destinations.

Likewise, The Corner Shop is an innovative technological solution that significantly simplifies our daily lives. It is a mobile application designed to display nearby services on your smartphone. Whether you require a dairy shop, a medical store, or a general store, this app provides prompt information about these establishments. By syncing your location on the app, you can effortlessly search for anything you need.
