ACKNOWLEDGEMENT

In preparing this project, we were in contact with many people, researchers, academicians, and practitioners. They have contributed towards our understanding and thoughts. In particular, we wish to express our sincere appreciation to our main project supervisor, Dr. Sumaira Haroon, for encouragement, guidance, critics and friendship.

Librarians at Bahria University also deserve special thanks for their assistance in supplying the relevant literature. Our fellow students should also be recognized for their support. Our sincere appreciation also extends to all our colleagues and others who have provided assistance at various occasions. Their views and tips are useful indeed. Unfortunately, it is not possible to list all of them in this limited space. We are grateful to all our family members.
