

DEPARTMENT OF MANAGEMENT SCIENCES

**BS SUPPLY CHAIN MANAGEMENT
(8th SEMESTER)
FINAL YEAR PROJECT**

TOPIC:

**PakFertNet (Pakistan Fertilizer Network): A Digital & AI
Integrated Supply Chain Platform for Sustainable and
Transparent Fertilizer Distribution in Pakistan – A Government-
Led Framework.**

**Supervisor:
(Ma'am Ayesha Zareef)**

Researched and Presented by:

Zulqarnain Khan (01-116221-026)

Sardarzada Muhammad Qasim Khan (01-116221-018)

Muhammad Abdullah (01-116221-011)

Table of Contents

ACKNOWLEDGMENT	iv
CHAPTER 1: INTRODUCTION	1
1. Introduction:	1
2. Background of the Study:	3
3. Problem Statement:	4
4. Objectives:	4
5. Scope of the study:	5
6. Justification of the Study:	6
7. Project Schedule:	7
8. Research Questions:	7
CHAPTER 2: LITERATURE REVIEW	9
2.1 Overview of Fertilizer Industry of Pakistan:	9
2.2 Supply Chain Transparency Failures and Market Distortions:	9
2.3 Theoretical Framework: Agency Theory & Technology Acceptance:	10
2.4 Digital Technology Solutions for Supply Chain Transparency:	10
2.5 Sustainable Technology Adoption Barriers:	11
2.6 Research Gaps and Relevancy:	11
CHAPTER 3: METHODOLOGY	12
3.1. Research Design and Philosophy:	12
3.2. Data Collection Methods:	12
3.3. Data Analysis Tools and Techniques:	13
3.4 Ethical Considerations:	14
CHAPTER 4: ANALYSIS	15
4.1. Current System Analysis:	15
4.2. Data gathering and analysis methodologies:	16
4.3. System Requirements and Specifications for development on large scale:	19
CHAPTER 5: IMPLEMENTATION OF RESULTS	23
5.1. The effectiveness of tools used in the Analysis of the Data:	23
5.2 Recommendations and Suggestions of change to implement:	24
CHAPTER 6: LIMITATIONS, CONCLUSIONS AND RECOMMENDATIONS	27
6.1. Limitations of the Study:	27

6.2. Conclusions:.....	27
6.3. Recommendations:	28
References:.....	30
Appendix:	32

ACKNOWLEDGMENT

The Project on PakFertNet (Pakistan Fertilizer Network) research was made possible with tremendous assistance of many individuals and institutions. Firstly and utmost, we would like to personally thank our supervisor (Ma'am Ayesha Zareef), who has provided all the support, constructive feedback, and guidance throughout our research helped this project direction and rigor.

Secondly we sincerely thank to the NFDC, FFC, who shared their institutional and personal expertise that strengthened our research, the way they considered the market dynamics, policy loopholes, and technical feasibility was important, and even they admired the idea we put it in front of them regarding to digitalize and make transparent and sustainable system of fertilizer supply chain. One of the individual whose specialist in agriculture sector connected with him on LinkedIn and briefly exchanged the opinions and information which provided edge to our project idea.

We are also very grateful to the farmers that provided us with the backstage story of the challenges they face, the pricing issues and digital inclusion. Their practical experiences provided support to our data and grounded our recommendations.

Lastly, we wish to acknowledge the assistance of research support services of our institution, and colleagues who provided helpful feedback. And our families, of course their patience and belief in what we were doing, sustained us through the tight deadlines, analytical challenges and pressure of work.
