ACKNOWLEDGEMENT

Firstly, we would like to thank Almighty Allah for His countless blessings, guidance, and strength, which enabled us to complete our Final Year Project successfully.

We would also like to say thank you to our parents who have been with us through all our ups and downs. They have always been a source of motivation for us in our academic life with their prayers, support, sacrifice & encouragement.

Additionally, we owe a debt of gratitude to our reverent teachers who led us, supported us, and prepared us to come to this point in our university journey that we are at today, recognizing the work that they have done and how much they have given.

We would like to thank our FYP Supervisor Ms. Javeria Aftab for her guidance, constant support and encouragement during the course of completion of this project work. Her guidance and support were key to the realization of this project.

We would also like to express our appreciation to Mr. Raheel, owner of Japan Electronics for his kindness, co-operation and support during our project. Furthermore, we would like to express our gratitude to Mr. Tayyab Arshad, Supply Chain Manager, Japan Electronics where he gave us useful tips and practical experiences concerning our research for the Final Year Project.

We would like to express our gratitude to all the employees of Japan Electronics who helped us during our research by sharing their time, cooperation and useful information. Their help was of great importance in the successful completion of our project.

Table of Contents

1 CHAPTER 1:INTRODUCTION	1
1.1 Introduction.....	1
1.2 Background of Study.....	2
1.3 Problem Statement.....	4
1.3.1 Specific Problems Arising from Current Operations.....	5
1.3.2 Infrastructure Utilization and Safety Problem.....	6
1.3.3 Inventory Planning and Replenishment Problem	6

1.3.4 Interdepartmental Coordination and Process Governance Problem.....	6
1.4 SMART Objectives.....	7
1.4.1 To Investigate Current Warehouse Operations and Identify System Gaps..	7
1.4.2 To Develop a Technology-Enabled Warehouse Management Model.....	7
1.4.3 To Make W7 a Model Warehouse.....	7
1.5 Scope and Limitations of the Study.....	7
1.5.1 Scope of the Study.....	7
1.5.2 Limitations of the Study.....	8
1.6 Justification.....	9
1.7 Budget and Resources List	11
1.8 Total Estimated Initial Cost.....	11
1.9 Project Schedule	12
1.9.1 A breakdown of the schedule is shown below.....	12
2 CHAPTER 2: LITERATURE REVIEW:	13
2.1 Analysis and Comparison:.....	15
3 CHAPTER 3: METHODOLOGY:	17
3.1 Introduction:.....	17
3.2 Justification for Selection of Research Methodology.....	17
3.3 Methodological Framework of the Study.....	18
3.4 Diagnostic Phase.....	19
3.4.1 On-Site Operational Assessment:.....	19
3.4.2 Stakeholder Interviews:.....	19
3.4.3 Baseline Performance Measurement:.....	20
3.5 Data Collection Methods	20
3.6 Tools Used for Data and Process Analysis.....	21
3.7 Improvement & System Development Phase:.....	22
3.7.1 Barcode and ERP Integration Enhancement:.....	22
v	
3.7.2 ERP Configuration and Workflow Structuring:.....	22
3.7.3 Inventory Control Model Implementation:.....	22
3.7.4 Infrastructure Optimization and Safety Alignment:.....	22
3.7.5 Process Standardization and Staff Training:.....	23
3.8 Conceptual Framework	23
3.9 Action Plan for Warehouse Optimization.....	24
3.10 Inventory Control Models Used.....	25
3.11 Research Design.....	26
3.12 Research Approach.....	26
3.13 Case Study Structure	26
3.14 Interview Participant Selection	27
3.15 Performance Evaluation Framework.....	28
3.16 KPI Measurement Approach	29
3.16.1 Inventory Accuracy Rate.....	29
3.16.2 Stockout Rate.....	29
3.16.3 Excess Inventory Percentage.....	29
3.16.4 ERP Adoption Rate.....	30
3.17 Time Schedule and Project Cost Consideration.....	30
4 CHAPTER 4: ANALYSIS	31
4.1 Description of the Current System:.....	31
4.2 Data Analysis Techniques:.....	32
4.3 Observation-Based Analysis:	33
4.4 GAP Analysis:.....	33

4.4.1 Gap Analysis Table:	34
4.5 SWOT Analysis:	34
4.5.1 Strengths.....	34
4.5.2 Weaknesses.....	35
4.5.3 Opportunities.....	35
4.5.4 Threats	36
4.6 Fishbone Diagram:.....	37
4.7 Process-Based Operational Analysis:.....	38
4.8 Methods and findings of data collection:	39
4.9 Definitions and specifications for requirements:.....	40
5 CHAPTER 5: IMPLEMENTATION AND RESULTS.....	42
5.1 Effectiveness of the Tools Used for Data Analysis.....	42
vi	
5.1.1 Phased Implementation Model.....	42
5.2 How interviews are conducted.....	44
5.3 Barcode and ERP Integration Implementation.....	44
5.4 Changes to Planning and Control of Materials.....	45
5.5 Infrastructure Improvement	46
5.6 ERP Modules Used.....	46
5.7 Expected Results of the Proposed Model	47
5.8 Cost–Benefit Analysis.....	48
5.8.1 Cost–Benefit Comparison.....	49
5.9 Final Recommendation.....	49
5.10 Future Outlook.....	50
6 Chapter 6: Conclusion and Recommendation	51
6.1 Limitation of Study.....	51
6.2 Conclusion.....	52
6.3 Recommendations.....	53
6.3.1 Implement Barcode-Based Inventory Tracking in a Pilot Zone	54
6.3.2 Improve the Use of the Existing Sales Care ERP System	54
6.3.3 Shift Toward Demand-Driven Inventory Planning	54
6.3.4 Improve Palletization and Racking System.....	54
6.3.5 Strengthen Material Handling and Worker Safety.....	55
6.3.6 Develop Standard Operating Procedures for Warehouse Activities.....	55
6.3.7 Introduce ERP-Based Procurement Workflow	55
6.3.8 Conduct Staff Training Programs.....	55
6.3.9 Introduce Monthly KPI Review Meetings.....	55
6.3.10 Expand the Model Gradually to Other Warehouses.....	56
6.3.11 Compare W7 Performance with Other Warehouses	56
6.3.12 Start with a Phased Implementation Plan.....	56
