A thesis presented to the Department of Management Sciences, Bahria University
Karachi Campus, in partial fulfillment of the requirements
of the MBA degree

FALL, 2015

Bahria University Karachi Campus

MBA Thesis
2nd Half-semester Progress Report & Thesis Approval Statement

Name of Student	Mohsin Kamal
Registration No.	32188
Thesis Title	IMPLEMENTATION OF GREEN SUPPLY CHAIN MANAGEMENT & ITS IMPACT ON OPERATIONAL PERFORMANCE

Supervisor-Student Meeting Record

No.	Date	Place of Meeting	Topic Discussed	Signature of Student
5	03-01-2016	Faculty Room	Chapter 3 literature Review was discussed with papers of different authors. Same were studied and relevant points were mentioned in chapters.	<i>Mohsin Kamal</i>
6	10-01-2016	Faculty Room	Chapter 4 Research Analysis questionnaire development and Theoretical Development	<i>Mohsin Kamal</i>
7	17-01-2016	Faculty Room	Data Analysis, Data Integration, SPSS Result from primary and secondary data	<i>Mohsin Kamal</i>

APPROVAL FOR EXAMINATION

Candidate's Name: MOHSIN KAMAL Registration No. 32188
Thesis Title: - IMPLEMENTATION OF GREEN SUPPLY CHAIN MANAGEMENT & ITS IMPACT ON OPERATIONAL PERFORMANCE

I hereby certify that the above candidate's thesis has been completed to my satisfaction and, to my belief, its standard is appropriate for submission for examination. I have also conducted plagiarism test of this thesis using HEC prescribed software and found similarity index at 15% that is within the permissible limit set by the HEC for the MBA thesis. I have also found the thesis in a format recognized by the Department of Management Sciences.

Supervisor's Signature: *Mohsin Kamal* Date: 11/06/2016

Abstract

Industrial sectors that are dedicated to manufacturing value the supply chain management the most. This case study is about the implementation of new technology named as 'Green Supply Chain Management' (GSCM) throughout the supply chain of Lucky Cement. Lucky Cement is one the major Cement Manufacture in Pakistan and it is ranked number fifth largest exporter to cement in the world. This research study is based on the implementation of Green Supply Chain Management and its impact in Lucky Cement Pakistan.

The Supply Chain Management has become the important part for the organisation to compete, sustain and adheres to environmental issues. The GSCM is the process that makes each stage of production environmental friendly. The case study discusses its impacts from all aspects. A quantitative research approach is used for this purpose in which fifteen survey questions are developed and distributed to production level staff members of Lucky Cement. The analysis reveals there is a positive impact of GSCM over the organisation with respect to operational performance and organisational environment. Further there is a strong relationship between the variables.
