Acknowledgment

I just thank God Almighty for charity without divine help blessings this theory research was not possible. I have given the maximum courage in completing and compiling this research the work of my way to acquire a master's degree. It was wonderful journey, although it contains many of the obstacles but my country wishing for always supreme stands steadfast commitment to frustrate all the obstacles. I dedicate this research work all who gave me great encouragement and support enormous and most prestigious institution “**Bahria University Islamabad**”. My supervisor **Sir Ajab Khan Burki** instilled me so involved in my view, accompanied by my colleagues - our laurels become achievable. It is satisfying is truly a great pleasure that my parents always behind the dedication and commitment. The overall family member support and encourage me to achieve superior.

Dedication

This thesis work is dedicated to my teachers, They have a constant source of support and encouragement during the challenges of graduate school and life. I am truly thankful for having them in my life. This work is also dedicated to my parents, Mother and Father, who have always loved me Unconditionally and whose good examples have taught me to work hard for the things that I aspire to achieve.

Abstract

The purpose of research study is to measure the *Impact of borrowing on banks profitability of Pakistan*. The *Dependent* variable taken for this study is *banks profitability* in order to find out impact of secure and unsecure borrowing in banking industry of Pakistan. The *Independent* variables taken for this study *include secure and unsecure borrowing* in order to measure whether or not these factors are affecting the banks profitability, The Correlation and Multiple Regression methods have been applied to find out the empirical evidence for the study by using SPSS. The applied test has indicated the significant relationship between secured borrowing and unsecured borrowing on profitability of banks in Pakistan. Finally the results show that unsecured borrowing has more significant effect on banks profitability in Pakistan as compare to the secured borrowing in Pakistan.

Key Words: Banks, Profitability, Secured Borrowing, Unsecured Borrowing.
