

## **ACKNOWLEDGEMENTS**

I would first like to thank my thesis supervisor Mam Dr. Taqqadus Bashir of department of management science at Bahria University Islamabad. The door to Mam Dr. Taqqadus Bashir's office was always open whenever I ran into a trouble spot or had a question about my research or writing. She consistently allowed this paper to be my own work, but steered me in the right direction whenever he thought I needed it.

I would also like to thank the management of Pakistan Tobacco Company who were involved in the filling survey of questionnaire for this research project: technical manager Mustaqim shah and IT manager Javed khan who contributed their efforts in our research. Without their passionate participation and input, the questionnaire could not have been successfully filled by the employees of PTC.

I would also like to acknowledge management of the Bahria University Islamabad as the second reader of this thesis, and I am gratefully indebted to his/her for his/her very valuable comments on this thesis.

Finally, I must express my very profound gratitude to my parents and to my friends for providing me with unfailing support and continuous encouragement throughout my years of study and through the process of researching and writing this thesis. This accomplishment would not have been possible without them. Thank you.
